

NATIONAL BIOLOGICAL CORPORATION

Risk Free NarrowBand UVB Conversion Guarantee

This guarantee is given to the owner of a National Biological Corporation (“NBC”) Houva II, Houva III or Uvisol Phototherapy Booth when the unit is converted to NB-UVB.

The guarantee applies to the conversion of a UV phototherapy booth to NB-UVB. It states that the converted NB-UVB booth will generate more revenue in the first 12 months following the conversion than the cost of the conversion.

If the booth does not generate more revenue than the cost of the conversion within that 12 month period, NBC will refund the difference between the revenue generated and the cost of the conversion.

THIS GUARANTEE GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE.
