National Biological Corp.
Attn.: Robert Gold
23700 Mercantile Road
Beachwood, Ohio 44122

Dear Mr. Gold:

Since upgrading my UV delivery system to NB-UVB, I have seen markedly improved results in the treatment of my psoriasis and vitiligo patients. The improved therapy results were seen in some patients after the very first treatment. The NB-UVB therapy has increased the number of content psoriatics which, in turn, has generated increased income in a short period of time. The cost of the upgrade was offset in the first 2 months by my increased patient satisfaction and subsequent referral to other patients. I was most impressed with National Biologic corporation's professionalism and efficiency.

Sincerely yours,

Douglas D. Altchek, MD
Professor of Dermatology
Mount Sinai School of Medicine
New York, NY
