S.E.E. the Light!
Safe, Effective & Economical

FOLDALITE® 32

Optimum Phototherapy Performance in an Ultra-Thin Design

The **FOLDALITE® 32** represents the pinnacle of phototherapy technology. Designed to treat the entire body in a single session, the **FOLDALITE® 32** features simple operation and quick treatment times.

The **PhotoSense® Exposure Control** lets you preset a maximum exposure time for each session to minimize the chance for overexposure.

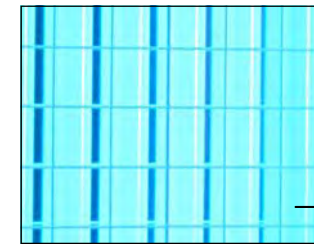

A safety key lock on the ON/OFF switch prevents unauthorized use. Watchdog circuitry shuts down device if it senses a potential malfunction.

Available in Narrow Band and other lamp types.

Folds Closed to 9"

Comfort control ventilation ensures patient comfort

Safety screens allow for maximum energy output and snap out for easy lamp replacement.

Easily folds to 9" to adjust to different body sizes and storage possibilities. Doors move and re-position effortlessly. Adjustable wheels designed for any floor surface. Can be installed in room corners.

5.4 square feet of treatment area, 35% more than other folding units

National Biological maintains a full line of phototherapy accessories in stock at all times. Included are UVA and UVB measuring devices, high output UVA and UVB lamps, glasses and goggles for eye protection.

Includes UVB measuring device
