Overview

The Handisol II® is a single-panel unit that is designed to be easier to move and carry.

It has high-efficiency reflectors to maximize side light dispersion for broad and uniform light coverage, plus a ventilating fan, which makes treatment more comfortable.

Key features

- Slim, lightweight, and portable, making storage and set up easy
- Adjustable – can be used horizontally, vertically or at an angle
- High-efficiency reflectors maximize side light dispersion for broad, uniform coverage
- Ventilating fan maximizes comfort
- Ships fully assembled
- Comes with goggles
- Covered by insurance plans
