

PANOSOL 3D[®]

FULL-BODY HIGH OUTPUT PHOTOTHERAPY
TREATMENT IN MINUTES

OVERVIEW

The Panosol 3D[®] is an affordable, full-body, home phototherapy system trusted by tens of thousands of patients. The P3D is designed to provide fast and effective full body treatments for psoriasis, vitiligo, and other photoresponsive conditions - all from the comfort, convenience, and privacy of your own home.

KEY FEATURES

- Multi-panel design reduces treatment times by treating three sides of the body at once
- High-efficiency reflector design maximizes lamp output for shortened treatment times
- The compact design allows for easy storage
- Safety on/off key prevents accidental or unauthorized use
- Safety control panel with built in timer ensures the accurate UVB/UVA dosage is administered each and every time
- Partially or fully covered by many insurance plans
