# Trusted Phototherapy Solutions for Localized Clinical Treatments

## Trusted Clinical Technology

The Hand/Foot II phototherapy system has been a mainstay in dermatological treatment for decades due to its effectiveness in treating various photoresponsive conditions.

## Simple to Set Up

Devices plug-in to a standard outlet with no technical installation required.

## Optional Hand/Foot Cart

The optional cart is designed to safely accommodate two devices - one for the hands, another for the feet - at a height comfortable for patients. Heavy duty casters make it easy to move the cart throughout the office.

Cart Dimensions:  
29" W x 32" H x 17" D upper  
21.5" D lower
