

# DermaPal

## **DermaPal™**

Ideal for scalp and spot treatment, the DermaPal is small enough to take with you when you travel; you'll never miss a treatment.

**Daavlin®**  
Let's Be Clear

### DermaPal™

Compact, effective, and affordable. The DermaPal was designed for the scalp and small treatment areas, but its compact size and carrying case make it ideal for travel, as well.

- 1 Designed with high-intensity lamps, the DermaPal clears as effectively as the powerful, top-of-the-line Daavlin products found in your doctor's office.
- 2 The durable slide-on comb attachment separates the hair for improved scalp penetration and doubles as a distance guide to ensure consistent treatments.
- 3 A built-in controller means that there is no need for an inconvenient, separate timer.
- 4 The light-weight treatment wand enables any patient to use the DermaPal without tiring.

<b>Treatment Area:</b>	1" x 4.5"	(2.54 cm x 11.4 cm)
